Natural Stone Character
Built for Interior & Exterior

Inspired by natural stone, contemporary architecture, and lasting performance.

Stoneveil is a premium decorative stone finish that combines natural mineral texture with outstanding durability. Its seamless surface creates elegant, contemporary interiors and architectural façades.

Designed for both interior and exterior applications, it offers excellent resistance to weather, UV exposure, and everyday wear. Applied by spray or trowel, Stoneveil delivers distinctive, long-lasting finishes for residential and commercial projects.

Professional Application. Exceptional Results.

APPLICATION METHODS

Stoneveil can be applied using either a spray system or a trowel, allowing different textures and finishes to suit the design vision and project requirements.

APPLICATION PROCESS

- Ensure the surface is clean, stable and properly primed.
- Apply Stoneveil evenly using the chosen application method.
- Allow sufficient drying time between coats for optimal performance.
- Finish with a protective sealer where required, particularly for exterior applications.

CREATING THE FINISH

The final appearance is achieved through the chosen application technique. Whether applied by spray or trowel, Stoneveil creates a seamless natural stone effect with depth, texture and architectural character.

RESULT

A durable, weather-resistant decorative finish that combines timeless aesthetics with outstanding long-term performance for both interior and exterior spaces.
